Welcome to our first Newsletter for 2019

Here is a brief outline of how projects for this year are progressing

- We are currently talking to a Planner in regards to **Park Road** and will be communicating with everyone concerned as soon as we have further information on how this will proceed.
(Thoughts being speed, parking, flooding, lighting, loading Bays scooters etc)
- Revamping of the **Miramar Brochure**, this Brochure was created prior to EMPI being established and it is now time for an upgrade, we will be asking members if they would like to have their business listed.
- WCC have advised that the planning of phase one of **Cycleways** is close to being completed and we will update you on this as we are updated.
- **Environmental issues** if you have any concerns please do not hesitate to email us to let us know, in the past 4 months we have reported 4 water leaks and have managed to get all but one of these sorted.
- **Wifi networks** are working well so if you would be interested in having a Hotspot in your area please let us know.
- www.miramarpeminsula.org.nz and Facebook page, these are being updated on a continual basis so if you have any news regarding your businesses success please do not hesitate to email the info through to Mary.
- **Resilience / water tanks** - currently discussions are underway to install the first trial water tank.
- **Overarching Plan for the Miramar Peninsula**, the online survey has proved very successful and results should be available by end of April.
- **Work Ready**: the first of the Work Ready meetings was held at 5.30pm on the 2nd April at 27 Chelsea Street Miramar, this is a great project and prepares young people in the transition from School to a working environment, we look forward to updating you as the project progresses.

Internal tracks on the Peninsula

The internal tracks along the many old military roads provide pleasant walks with expansive views of the harbour, often through old pine forest or regenerating native forest, or across rural farmland. Many of the tracks are ideal for family mountain biking as they are wide and gently graded.
